

Market Analysis Mini-Challenge

Take on the Market Analysis Mini-Challenge! These four simple steps will help you start gathering insights about your district. Check off each step as you complete it.

Step 1: Walk Your District

- Observe foot traffic patterns - where are people gathering?
- Identify which businesses are thriving and which are struggling.
- Take note of vacant storefronts and consider why they might not be occupied.

Step 2: Talk to Business Owners

- Choose two business owners and ask: Who are your customers? What challenges do you face in attracting and keeping them?
- Write down at least one way your Main Street program could better support them.

Step 3: Use Publicly Available Data

- Check U.S. Census data to learn about your district's demographics (income levels, population trends, age distribution).
- Use Google My Business insights to see how often people search for businesses in your area.

Step 4: Engage the Community

- Run a one-question poll: What businesses do you wish we had downtown?
- Hold a small business roundtable or open forum to discuss economic trends.

Take Action

Choose one step to complete this week and take notes on what you learn.
